

New Appointment For TSL Middle East

TSL Middle East has announced the appointment of Suhail Ahmed as Manager of Technical Services, with responsibility for support for current, existing and future projects in the area.

Ahmed will also be closely involved with all technical aspects of TSL's operations in the region.

TSL Middle East General Manager Colin Sherriff said: "The addition of Suhail Ahmed is an important step in the continued growth of our Dubai office and will further strengthen our regional support operations.

"As well as developing local integration capabilities, Suhail will assist with proposals, presentations and customer liaison. As a highly experienced and respected professional, we are delighted that he has joined our team."

Ahmed comes to TSL from CNBC Arabia where he was Bureau Operations Manager, providing advanced technical support designed to incorporate the latest technology to ensure optimisation and quality control of all bureau systems and workflows.
