

Setanta hires TSL

Sports broadcaster Setanta has commissioned systems integrator TSL to install a new playout facility in west London. Setanta's new operation, its first outside Dublin and Glasgow, is based at Input Media's Production Centre in Shepherds Bush. TSL will work with Input to prepare recorded programming for Setanta's cable and satellite platforms. Setanta will launch three new channels in the next 18 months, starting in January with Setanta Golf.
