A Busy Week for Broadcast Technology Suppliers

In a week when many in the broadcast industry were busy following up from the NAB show (and quite a few volcano-stranded travelers still struggling to make it home from Las Vegas), there was quite a bit of activity among broadcast suppliers.

Highlights:

* Privately held UK-based broadcast systems integrator TSL was ranked #77 in the Sunday Times "Profit Track 100." According to the poll, the company's profits have grown at 47% to £4.28m.
