

TSL to open MediaCityUK office

Broadcast systems firm TSL has today announced that it is to open a new office at The Pie Factory, joining the growing list of tenants moving into the MediaCityUK development.

TSL has been working with MediaCityUK developer Peel Media over the course of the last two years, providing technical expertise for the 'equipment and full systems integration services' at the development's Studio Block (which boasts seven high definition TV studios, audio studios and a host of production and support facilities). David Phillips, MD of TSL, commented: "We enjoy a close working relationship with Peel Media and this new office is demonstrable evidence of our commitment, not just to the MediaCityUK development but to the expanding broadcast and production work that will emanate from this world-class facility."

TSL will now be a neighbour of existing tenants such as Axon Birch, Toasted Productions, Design 108, Purple Crew, Gallowglass and Lemon Casting.

The firm also recently opened an office at Studio City, Dubai.
