

TSL Middle East

TSL Middle East will be unveiling a new, larger stand for this year's show highlighting the many recent, regional successes – OSN, Sky News Arabia, First Media, twofour54, to mention just a few. With TSL-employed engineers and project managers also involved in support and training, together with the back-up of a 2000sqm of pre-assembly space in the UK for large projects, CABSAT is an excellent platform for TSL to secure further business. Stand Number S2-B21
