

There were also audio systems tucked away among the video and cameras in the Convention Hall. On Huton Digital, **TSL**'s new AMU2-3G A/V monitor had made its way over from its NAB launch and was being show alongside the MPA1-BD audio/digital bargraph meter with its Celtic Audio designed loudspeakers. 'The MPA1-BD is proving very successful,' TSL audio applications manager Martin Dyster said. 'Our best selling unit is still the AMU2-8HD, which has been out for around three years.'
