**TSL CABSAT 2008 Preview Booth no: ZM-11**

*TSL is the UK's leading independent broadcast systems integrator, with an international client base.*

TSL is the UK's leading independent broadcast systems integrator, with an international client base. The company has a strong professional products division that includes Audio Monitoring, Mains Distribution, UMD and Tally Systems. TSL also develops custom products in-house to meet customer requirements that cannot be satisfied by standard products.

Showcasing at CABSAT 2008:

NEW 3G HD 1080p (50Hz) and Dolby decoding rack-mount audio monitor (AMU1-3G): Making its Middle East debut, the AMU1-3G is TSL's latest multi-standard, multi-formatted rack mount audio solution for the professional broadcast market. The unit has been designed to fulfil a requirement for comprehensive, intuitive and compact metering of Dolby E bit streams from HD/SDI video formats up to and including the latest HD standard 1080p at 50 Hz.

HD/SDI and Dolby decoding audio monitoring solution (AMU2-8HD Dolby):

The firmly established and market leading 8-channel HD/SDI and Dolby decoding rack audio monitor from TSL provides a complete HD monitoring solution for master control rooms, play-out, production and outside broadcast requirements. The AMU-8HD also features high-resolution bargraph displays, AES and Analogue audio inputs and is one of the most intuitive and easy to use professional audio monitoring products in the market today.

NEW Monitor Plus audio monitoring series (MPA 1-S & MPA1-AS): The new Monitor Plus series from **TSL** includes four units in the product portfolio designed to meet the market need for entry-level, high-quality family of audio monitoring units.

Also on display:

\* HD/SDI, rack mounted audio monitor with AES and Analogue audio inputs – AMU2-BHD

\* Multi-format HD/SDI decoding audio monitor with dual meter displays - AMU2-2MHD:
